**About Workplace Index:** The JobBuzz Workplace Index is a compilation of employee ratings from across a selection of companies varying in size, geography and industry on various critical workplace parameters. The index value has been kept at 100. The percentages are an indicator of ratings being provided by the employees on JobBuzz for their respective companies. These percentages are an indicator of happiness quotient of employees.

**About JobBuzz:** JobBuzz is an information exchange platform for candidates and employers in form of reviews, ratings and company insights. JB is an open platform where they interact to influence each other.

**Disclaimer:** All data, figures, information provided here is the proprietary information of JobBuzz and should not be (in whole/or part) be published, reproduced or referred to without prior approval from JobBuzz or without being credited to JobBuzz. None of the representatives, employees or affiliates warranties the accuracy or completeness of any information furnished hereto. This report is prepared by JobBuzz only for information purpose. It doesn't (in any way) reflect the economical, industrial, public or global sentiments or beliefs.
